

CT 310

February 12, 2008

- Preliminaries**
- Project 1**
- More on Positioning**
- Nesting Styles within HTML**
- Depth**

Preliminaries

Questions about **CT 310**?

-Dr. Beveridge is **out of town**

- Monday **8-10AM** USC 3rd floor
- Wednesday **9-10AM** USC 3rd floor
- Thursday **12-1PM** USC 3rd floor

-Send **email** if you like!

-**Posted soon:**

- Project 1 specification
- Classwide image map
- Homework 1 grades

Project 1

The Super Amazing Campus Area Image Map!

-Something like

- <http://www.foundcity.net/>

-Using

- Google Earth
- XML
- PHP
- GIMP

Project 1: How to?

The high level overview of Project 1

- Given **XML** files
- Read **XML** using **PHP**
- Depending on **user selection, highlight**
- Room for **creativity**
- Partner assignments** (at the end of class)

Project 1: Where should we start?

Suggestions for good starting points!

- Get PHP to do “**Hello World**”
- Download a simple **XML** file
- Get **PHP** to display the contents
- Read** the Project 1 specification
- Meet** with your partner
- Research** image maps

More on Positioning

<http://www.cs.colostate.edu/~ross/teaching/ct310spring2007site/aplay/lec05/index.html>

-Study the examples under **Spring 2007**,
Lecture 5 Examples

-Let's check it out!

Nesting Styles within HTML

Your style sheet does not have to be separate!

- Why use **nested style**?

- What does nested style **look like**?

- Let's check it out!**

Depth

Deep, man!

-What is **depth**?

-**Implicit** versus **Explicit**

-**Let's check it out!**

Project 1 Partners

Nick **Evans** and David **Shetter**

William **Springer** and Chris **Schumacher**

J **Guadagnoli** and Debbie **Devore**

Brandon **Leroux** and Joe **Lessard**

Denney **Liptak** and Aaron **Hill**

Ian **Overgard** and Matt **DeSilvey**

Josh **Powers** and Jared **Rusch**

Jill **Siewert** and Jason **Shoemaker**

Luke **Lawyer** and Chung-Ming **Tien**
