CS 457 - Lecture 13
Midterm Review
Fall 2011
Midterm Exam

• Thursday in Class
• Closed book, no calculators allowed
• Can bring one 8.5 x 11 sheet of papers with any notes you want
• Covers everything we did so far
• No socket programming questions
How to Do Well in this Exam

• Study ALL the material, make sure you understand the fundamentals
• Memorize the important formulas
• Study homework
• Consider variations on the scenarios we discussed in class – “what if I change this..”
• Be concise in your answers!
