

Iclicker Quiz #10

Methods and Parameters

Parameters

- If in a program I have the following, what is printed?

```
int i = 2;  
myMethod(i);  
System.out.println(i);
```

```
public static void myMethod(int i) {  
    i++;  
}
```

- A. 2
- B. 3
- C. 0

cs163/164: Peer 5 - Methods and Parameters - Fall Semester 2016

Question - 1

Parameters

- If in a program I have the following, what is printed?

```
int i = 2;  
myMethod(i);  
System.out.println(i);
```

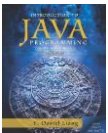

```
public static void myMethod(int i) {  
    i++; }  
}
```

- A. 2
- B. 3
- C. 0

cs163/164: Peer 5 - Methods and Parameters - Fall Semester 2016

Question - 2

Parameters

- If in a program I have the following, what is printed?

```
int i = 2;  
i = myMethod(i);  
System.out.println(i);
```

```
public static int myMethod(int i) {  
    i++; return i;}  
}
```

- A. 2
- B. 3
- C. 0

cs163/164: Peer 5 - Methods and Parameters - Fall Semester 2016

Question - 3

Parameters

- If in a program I have the following, what is printed?

```
int i = 2;
i = myMethod(i);
System.out.println(i);
```

```
public static int myMethod(int i) {
    i++; return i }
}
```

- A. 2
- B. 3**
- C. 0

cs163/164: Peer 5 - Methods and Parameters - Fall Semester 2016

Question - 4

Which of the method declarations shown below will compile ?

- A. `public static void method1(int io, i1, i2, char co) { ... }`
- B. `public static void method2(int io, String so, char co, int i1) { ... }`
- C. `public static void method3(String so, void, int io, char co) { ... }`
- D. `public static void method4(int, char, String, double) { ... }`
- E. `public static void method5(int i, int j = 10) { ... }`

Formal Parameters

cs163/164: Peer 5 - Methods and Parameters - Fall Semester 2016

Question - 5

Which of the method declarations shown below will compile ?

- A. `public static void method1(int i0, i1, i2, char co) { ... }`
- B. `public static void method2(int i0, String so, char co, int i1) { ... }`
- C. `public static void method3(String so, void, int i0, char co) { ... }`
- D. `public static void method4(int, char, String, double) { ... }`
- E. `public static void method5(int i, int j = 10) { ... }`

Formal Parameters

cs163/164: Peer 5 - Methods and Parameters - Fall Semester 2016

Question - 6
