

Lab 10

Single-Dimensional Arrays

Objectives of this Lab:

1. Introducing Single-Dimensional Arrays, creating and processing arrays

zyBooks

Today's lab will be in zyBooks.

Your TA will demonstrate the first program in zyBooks, **6.14 Output numbers in reverse**. You will follow along in your own zyBooks account.

After the demonstration by your TA, you will need to complete **6.15 Middle Item** in zyBooks on your own.

Note: Make sure that you submit everything to zyBooks to get credit. All zyBooks assignments completed in lab are due by the next day; however, it's best to get them in on your lab day to prevent getting behind.
